***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Zachary Stern on June 28, 2005.

The application has been amended as follows:

IN THE CLAIMS:

Claim 45:

- Line 3, after "laser", added --array--;
- Line 11, after "resin", added --to fix the collimator lens--.

***Reason For Allowance***

2. The following is an examiner's statement of reasons for allowance: Claim 45 is patentable over the prior art patents and printed publications because of the specific method of adjusting alignment of light beams in a multibeam light source, the method comprising the steps of emitting light from the light emitting points in a semiconductor laser array to simultaneously scanned over a recording substrate, rotating the semiconductor laser array with respect to a collimator lens to a first alignment position so as to align the light emitting points in the sub-scanning direction, retaining the

Art Unit: 2861

semiconductor laser array in said first alignment position by fixing the collimator lens using an ultraviolet curing adhesive resin, further rotating the semiconductor laser array with respect to a bracket with tapped screw holes to a second alignment position so as to satisfy the following relation  $\theta \leq \tan^{-1} \{1/(n-1)\}$ , where angle  $\theta$  is defined by first and second straight lines on the recording substrate, said first straight line drawn perpendicular to the primary scanning direction and said second straight line drawn through respective centers of a first and an n-th light beam spot, and finally retaining the semiconductor laser array in said second alignment position by tightening the screws through the tapped screw holes. The combined method steps are not taught by the prior art of record alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Information Disclosure Statement***

3. The information disclosure statements (IDS) submitted on 10/24/03 and 04/13/04 with lists of related cases have been received and subsequently considered by the examiner. The information disclosure statements have been placed in the application file.

**Contact Information**

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C. Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David L. Talbott can be reached on (571) 272-1934. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
